

Ana Roberti

It's no longer enough to apply good taste and the standard principles of excellent design. The ever changing needs of humans demand that the evolution of interior environments not only need to be functional and aesthetically pleasing, but they need to **nurture** and **support** the souls of the people that dwell or work within them. Advanced technologies and challenging lifestyles of today are putting stresses on the human body and soul that must be addressed in the spaces we spend our time in. There is a hidden dimension to interior design, and Ana Roberti will transport you to a new awareness of what it is, and show you how to tap into it so you can better create fabulous surroundings for yourself, your family, and your workspace ~ surroundings that will ultimately support you beyond what you can see and touch.

Keynote Topics

Color- The Silent Language

The 5 Designer Principles

How to Accessorize Like a Designer

Reflecting Soul in Your Home

How to Create a Positive Energy Flow

in your home or work environment

Ana engages her audiences with dynamic and visually exciting presentations on interior design for the home and office. She believes your interior environment should reflect who you are, what's important to you, and it should be a sanctuary that supports and nurtures your soul.

Attendees leave with ideas and tips that they can apply on their own, right away.

What People Are Saying

"Ana shared her process of creating professionally designed interiors. She knows her stuff, and generously gives lots of tips for making a space "your own". Her 5 SoulScape Designer Principles will open your eyes to the important elements that many people (including many professional designers) miss. Her seminar was more than a smorgasbord of ideas- it was a carefully curated serving of insights and secrets that will help you create rooms with personality and style!" -Cheryl Craig

"I attended Ana's seminar to get information to help me with a complete renovation for a second home in Florida. I learned about size and proportion and what a difference that makes in the feel of a space. I learned about mixing patterns, large ones with smaller ones so as not to overwhelm. I learned about colors and paint and how that can open or warm up a room. Now my Florida house gets so many compliments with Ana's help!" -Ellen S.

"I was interested in learning some decorating pointers; how to make a room beautiful and welcoming. One of my takeaways was learning the importance of size and proportion of furniture, artwork, tables, etc., matching the size of the room." -Mary P.

"Attending the Five Designer Principles taught me that color is multi-layered and it influences your mood. I found the presentation to be very helpful!" - Anne L.

"Ana's presentation very enjoyable and it confirmed my need for professional assistance." -Norma B.

"I learned the principles of intensity and saturation and how to make them work. Ana's seminar was helpful to me." -Elaine J.

"Ana's presentation was helpful and I learned more about color and style". -Jeannette L.
